Missing Person

AUTHORIZATION TO RELEASE DENTAL RECORDS

Instructions:

Under Montana law, MCA 44-2-401, any person who reports a missing person to a Montana Police Department, Sheriff's office, or other law enforcement authority must be given a copy of this Authorization to Release Dental Records form.

If a person is still missing 30 days after a missing person report was filed, this Authorization to Release Dental Records form may be signed by a relative of the missing person and taken to the missing person's dentist. The dentist shall release the dental records, or copies of the records, to the relative. The relative must then submit the dental records to the investigating law enforcement agency within 10 days.

If no relative exists, the investigating law enforcement agency may execute a signed written declaration stating that an investigation into the location of the missing person is being conducted and that the dental records may be necessary to the investigation. A dentist shall release the missing person's dental records upon presentation of the declaration.
