DEFINITIONS

*Juvenile Victims are defined here as individuals under the age of 18

CODIS: Combined DNA Index System or CODIS is the United States national DNA database program used as a tool to link violent crimes.

Offender Hit: When a DNA profile from a SAK or crime scene matches with a DNA profile from a known offender or arrestee, possibly identifying a suspect.

Forensic Hit: When two crimes become linked due to a DNA profile from one SAK or crime scene matching another.
