

SYM/TAC Consulting – Law Enforcement Shotgun

Instructors: Rob & Matt Haught

Date/ Time: April 26th-27th 0800-1700

Where:

Ravalli County Sheriff's Office / Whittecar Rifle & Pistol Range

598 Blodgett View Drive, Hamilton, MT 59840

Contact: Deputy Tod Wofford at twofford@rc.mt.gov

Course Description:

This course primarily focuses on the Push/Pull method of recoil control. Using Rob's unique method of recoil management, the student will be able to reduce felt recoil by nearly 50% and be able to fire follow-up shots with a 12-gauge shotgun as fast as most shooters can fire their pistols. The student will also be introduced to the shotgun CQB technique, which effectively shortens the weapon by 33%, making it effective even in extremely tight quarters. Other topics include: marksmanship fundamentals, patterning zones, ammunition selection, tactical manipulation, equipment selection, low light considerations, malfunction clearances, pistol transitions, pivots/turns, and shooting on the move.

Equipment requirements:

- Reliable duty-type shotgun (pump or semi-auto)
- Duty pistol and holster/belt
- Ability to carry at least 25 rounds to the line (belt carriers, chest rig, etc are preferred, a dump pouch is also useful)
- Eye and ear protection
- Shooting gloves
- Clothing suitable for range work
- Snacks and water
- Weapons lubricant and cleaning supplies
- 400 rds. birdshot (lead only, no steel shot)
- 35 rds. buckshot
- 15 rds. slug
- 50 rds. pistol
