Dear <<Name 1>>:

We are writing to inform you of an incident experienced by Arizona Asthma and Allergy Institute (the "Institute") that may have involved your personal information described below. We take the privacy and security of all information very seriously, and while we have no evidence to suggest actual or attempted misuse of information as a result of this incident, this letter includes information about the incident and steps you can take to help protect your information.

What Happened: The Institute recently learned that certain data made publicly available under the name of a different organization for a brief period in September 2020, may have included Institute data. Upon discovery, the Institute immediately began investigating, with the assistance of a third-party forensic security firm, to determine the scope of this incident. Based on this investigation, the Institute confirmed on March 8, 2021, that the available data included limited information related to Institute patients who received services between October 1, 2015 and June 15, 2020. We immediately began working to identify the potentially affected individuals and obtain sufficient contact information to provide you with this notification. On May 18, 2021, we completed this review.

What Information Was Involved: The personal information that was included within the affected data may have included your first and last name in combination with your patient identification number, provider name, health insurance policy number, claim number, health insurance provider, and treatment cost information.

What We Are Doing: Upon learning of this incident, we immediately began an investigation and took steps to ensure enhanced security measures were in place to help prevent a similar occurrence in the future. Further, we performed extensive web searches to confirm that no Institute data remains publicly available. We are also notifying potentially impacted individuals and providing information about steps they can take to help protect their information.

What You Can Do: We recommend that you remain vigilant in regularly reviewing your explanation of benefits statements to guard against any unauthorized transactions or activity. If you discover any suspicious or unusual activity, please promptly contact your medical and/or insurance provider. You may also review the enclosed "Steps You Can Take to Protect Your Information" for additional resources available to you.

For More Information: We have established a dedicated assistance line to address any questions you may have which can be reached at 855-654-0915, Monday through Friday, 7 a.m. to 7 p.m. Mountain Time. You may also contact the Institute by mail at 13965 N 75th Ave, Peoria, AZ 85381.

The security of our patients' personal information is of the utmost importance to us, and we deeply regret this incident.

Sincerely,

Todd McGee
COO

STEPS YOU CAN TAKE TO PROTECT YOUR INFORMATION

Monitor Your Accounts

We encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your credit reports/account statements and explanation of benefits forms for suspicious activity and to detect errors. Under U.S. law, you are entitled to one free credit report annually from each of the three major credit reporting bureaus: TransUnion, Experian, and Equifax. To order your free credit report, visit www.annualcreditreport.com or call 1-877-322-8228. Once you receive your credit report, review it for discrepancies and identify any accounts you did not open or inquiries from creditors that you did not authorize. If you have questions or notice incorrect information, contact the credit reporting bureau.

You have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a one-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any of the three credit reporting bureaus listed below.

As an alternative to a fraud alert, you have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without your express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a credit freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., III, etc.);
2. Social Security number;
3. Date of birth;
4. Address for the prior two to five years;
5. Proof of current address, such as a current utility or telephone bill;
6. A legible photocopy of a government-issued identification card (e.g., state driver’s license or identification card); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft, if you are a victim of identity theft.

Should you wish to place a fraud alert or credit freeze, please contact the three major credit reporting bureaus listed below:
