

Statement of Purpose and Implication (75 words):

Statement of Purpose and Implication:

[Initiative Number] proposes to amend the Montana state Constitution to require retail electric utility providers to produce or source the energy they provide from one percent renewable resources by 2029. Each retail electric utility provider shall generate or acquire at least twenty-five percent of its electricity from renewable sources by 2025. Each year thereafter, the amount of electricity required to come from renewable sources increases by five percent until reaching one hundred percent in 2049.

Fiscal Statement (29 words):

[Initiative Number] will require an additional analyst and an additional attorney at the Public Service Commission costing \$215,561 in FY2024, \$210,807 in FY 2025, and \$210,879 each year thereafter.
