Notice of Data Breach

Dear <<first_name>> <<middle_name>> <<last_name>> <<suffix>>,

We are writing to inform you of an incident that may have affected your personal information.

What happened?

On September 14, 2021, an associate reported that a laptop containing patient information from the Vision Center at Walmart Store #1071 could not be located. Walmart immediately searched for the laptop throughout the store and other relevant locations. Unfortunately, Walmart was unable to locate the laptop. Walmart's investigation did not indicate that the situation was the result of theft or other criminal behavior.

What information was involved?

The information contained on the laptop pertained only to patients visiting the Vision Center at Walmart Store #1071, located at 610 Wesley Drive, Wood River, IL 62095. You may have been affected if you received a visual field test to assess your peripheral vision at that store location between April 2017 and October 2017. The information affected would include your name, date of birth, and a graph reflecting the results of the visual field test. Walmart has no indication that the information has been misused in any way.

What we are doing.

On behalf of Walmart, I want you to know we place great value in your trust and take this matter very seriously. We are committed to protecting the privacy and security of our customers' personal information. We are reviewing the facts and circumstances surrounding this matter and evaluating whether additional safeguards can help prevent this type of incident from occurring in the future.

What you can do.

Although Walmart has no indication that the information has been accessed by unauthorized individuals or is likely to be misused, we encourage you to contact a dedicated call center at (855) 732-0804 for assistance and advice regarding how this incident may have affected you. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for at least one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft and you have the appropriate documentary proof. The following information must be included when requesting a security freeze (note that, if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past 5 years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, and display your name, current mailing address, and the date of issue.
