<<b2b_text_1(Re: Notice of Data Security Incident / Data Breach)>>

Dear <<first_name>> <<middle_name>> <<last_name>> <<suffix>>,

The Town of Concord writes to you regarding an incident that may impact the security of your personal information. This letter contains information about the incident, our response, and steps you may take to better protect your personal information, should you feel it necessary to do so.

What happened? On October 17, 2019, the Town of Concord underwent a routine replacement of a large amount of office equipment. Part of this process included disposing of hard drives used to store data related to town business. These hard drives were delivered to Concord Public Works for disposal and were discovered missing just before the scheduled disposal. The Town of Concord Police Department immediately commenced a criminal investigation and, at this time, has not been able to recover the missing hard drives.

On November 14, 2019, we posted about this incident on the Town Facebook page and posted a press release about this incident on the Town website. In addition to a criminal investigation, Town of Concord engaged outside forensic experts to work with our team to understand what information was stored on the missing hard drives. This extensive review involved reviewing existing systems to determine whose information could potentially be stored on the missing hard drives and a review of internal records to identify address information for impacted individuals.

What information was involved? After the extensive review, we determined that your <<b2b_text_2(Name, Data Elements)>><<b2b_text_3(Data Elements Cont.)>> may have been stored on the missing hard drives. *At this time, we are not aware of any misuse of anyone's information in connection with this incident.*

What we are doing. We take this matter and the security of your personal information very seriously. Out of an abundance of caution, we blocked access to old passwords and changed access procedures. As part of our ongoing commitment to the security of personal information in our care, we also reviewed our existing policies and procedures and implemented additional safeguards to enhance the security of information in our possession. In addition to notifying you, we notified state regulators, as required.

Additionally, we have secured the services of Kroll to provide identity monitoring at no cost to you for 12 months.

What you can do. Should you find it appropriate to take further action, you can find more about how to protect against potential identity theft and fraud in the enclosed *Steps You Can Take to Help Protect Your Information*. There you will also find more information on the credit monitoring services we are offering and how to activate.

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended "fraud alert" on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a "credit freeze" on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer's express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a security freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver's license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

¹ Kroll's activation website is only compatible with the current version or one version earlier of Chrome, Firefox, Safari and Edge. To receive credit services, you must be over the age of 18 and have established credit in the U.S., have a Social Security number in your name, and have a U.S. residential address associated with your credit file.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:
