NOTICE OF DATA SECURITY INCIDENT

Dear Sample A. Sample:

Butler County (the “County”) is writing to tell you about a recent incident that involved unauthorized access and acquisition to data stored on the County’s computer network. We take this matter very seriously because we are committed to the privacy and security of all information in our possession. Therefore, we are providing this notice to inform you, explain the complimentary credit monitoring services that we are offering you, and suggest ways that you can protect your information.

What Happened

On October 2, 2023, federal law enforcement alerted us to suspicious activity involving the County network. We immediately began working with a nationally recognized digital forensics team to secure our network and investigate the scope of the incident. On October 30, 2023, as part of the ongoing investigation, we determined that there was unauthorized access to, and acquisition of personally identifiable information maintained on the County’s network, which occurred on October 2, 2023. Once we learned this, we began a thorough review of the contents of the identified data to establish what information may have been involved, who may have been affected, and where those people reside so that we can provide notice. On January 22, 2024, we completed the review and began locating mailing addresses for individuals whose information may have been impacted, so that we could provide them with written notice of this incident.

What Information Was Involved

The potentially impacted data contained your name and the following information related to you: [Extra1].

What We Are Doing About It

As soon as we learned about this incident, we immediately worked with our team to secure our network and begin an investigation. We have notified the Butler County District Attorney and continue to cooperate with federal law enforcement’s investigation. On November 8, 2023, we posted notice of this incident on the County website and notified major statewide media as required by Pennsylvania law. To further enhance our security and to help prevent similar occurrences in the future, we have taken or will be taking the following steps:

1. Deployed security tools to enhance detection and accelerate response to cyber incidents;
2. Actively monitoring our network using end point detection tools to help ensure containment;
3. Conducted enterprise-wide password reset; and
4. Strengthening network security.

Obtain Your Credit Report

You should also monitor your credit reports. You may periodically obtain your credit reports from each of the national consumer reporting agencies. In addition, under federal law, you are entitled to one free copy of your credit report every 12 months from each of the three nationwide consumer reporting agencies listed above. You may obtain a free copy of your credit report by going to www.AnnualCreditReport.com or by calling (877) 322-8228. You also may complete the Annual Credit Report Request Form available from the FTC at <https://www.consumer.ftc.gov/sites/www.consumer.ftc.gov/files/articles/pdf/pdf-0093-annual-report-request-form.pdf> and mail it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348-5281. You may also contact any of the three major consumer reporting agencies to request a copy of your credit report. You may be able to obtain one or more (depending on the state) additional copies of your credit report, free of charge. You must contact each of the credit reporting agencies directly.

If you discover inaccurate information or a fraudulent transaction on your credit report, you have the right to request that the consumer reporting agency delete that information from your credit report file.

Fraud Alerts

You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for one year. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you prior to establishing any new accounts in your name. To place a fraud alert on your credit report, contact any of the three national credit reporting agencies using the contact information listed above. As soon as one credit bureau confirms the fraud alert, they will notify the others. Additional information is available at www.annualcreditreport.com.

Security Freeze

You have the ability to place a security freeze on your credit report at no cost to you. A security freeze is intended to prevent credit, loans and services from being approved in your name without your consent. To place a security freeze on your credit report, you may be able to use an online process, an automated telephone line, or a written request to all three of the credit reporting agencies listed above. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; (5) a legible copy of a government-issued identification card, (6) proof of current address, such as a legible copy of a recent utility bill or bank or insurance

statement, (7) a legible copy of a recent W-2, pay stub, or Social Security card, and (8) if you are a victim of identity theft, a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. **Under federal law, you cannot be charged to place, lift, or remove a security freeze.**

After receiving your freeze request, each credit reporting company will send you a confirmation letter containing a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place, you will need it if you choose to lift the freeze.

Additional Helpful Information

Even if you do not find any suspicious activity on your initial credit reports, the Federal Trade Commission (FTC) recommends that you check your credit reports periodically. Checking your credit report periodically can help you spot problems and address them quickly.

If you find suspicious activity on your credit reports or have reason to believe your information is being misused, call your local law enforcement agency and file a police report. Be sure to obtain a copy of the police report, as many creditors will want the information it contains to absolve you of the fraudulent debts. You may also file a complaint with the FTC by contacting them at the information provided above. This notice was not delayed as a result of a law enforcement investigation.

If your personal information has been used to file a false tax return, to open an account or to attempt to open an account in your name, or to commit fraud or other crimes against you, you may file a police report in the city in which you currently reside.
