Below are additional helpful tips you may want to consider to protect your personal information.

### **Review Your Credit Reports and Account Statements; Notify Law Enforcement of Suspicious Activity**

As a precautionary measure, we recommend that you remain vigilant by reviewing your credit reports and account statements closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or other company with which the account is maintained. You also should promptly report any fraudulent activity or any suspected incidents of identity theft to proper law enforcement authorities. If you believe you are the victim of identity theft or have reason to believe your personal information has been misused, you should immediately contact law enforcement, the Federal Trade Commission ("FTC") and/or the Attorney General's office in your home state. You can also contact these agencies for information on how to prevent or avoid identity theft, and you can contact the FTC at:

When you receive your credit reports, review them carefully. Look for accounts or credit inquiries that you did not initiate or do not recognize. Look for information, such as home address and Social Security number, that is inaccurate. If you see anything you do not understand, call the credit reporting agency at the telephone number on the report.

## Fraud Alert

You may want to consider placing a fraud alert on your credit file. An initial fraud alert is free and will stay on your credit file for one year. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you prior to establishing any accounts in your name. If you have already been a victim of identity theft, you may have an extended alert placed on your report if you provide the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years. To place a fraud alert on your credit report, contact any of the three credit reporting agencies identified above.

## Security Freeze

You have the right to place a security freeze on your credit file free of charge. This will prevent new credit from being opened in your name without the use of a PIN number that is issued to you when you initiate the freeze. A security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. As a result, using a security freeze may delay your ability to obtain credit. In order to place a security freeze, you may be required to provide the consumer reporting agency with information that identifies you including your full name; social security number; date of birth; current and previous addresses; a copy of your state-issued identification card; and a recent utility bill, bank statement, or telephone bill.

## Federal Fair Credit Reporting Act Rights

The Fair Credit Reporting Act ("FCRA") is federal legislation that regulates how consumer reporting agencies use your information. It promotes the accuracy, fairness, and privacy of consumer information in the files of consumer reporting agencies. As a consumer, you have certain rights under the FCRA, which the FTC has summarized as follows: you must be told if information in your file has been used against you; you have the right to know what is in your file; you have the right to ask for a credit score; you have the right to dispute incomplete or inaccurate information; consumer reporting agencies must correct or delete inaccurate, incomplete, or unverifiable information; consumer reporting agencies may not report outdated negative information; access to your file is limited; you must give your consent for reports to be provided to employers; you may limit "prescreened" offers of credit and insurance you get based on information in your credit report; and you may seek damages from violators. Identity theft victims and active-duty military personnel have additional rights.

For more information about these rights, you may go to [www.ftc.gov/credit](http://www.ftc.gov/credit) or write to: Consumer Response Center, Room 13-A, Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580.

## Additional Information

If you are the victim of fraud or identity theft, you also have the right to file a police report.

You may consider starting a file with copies of your credit reports, any police report, any correspondence, and copies of disputed bills. It is also useful to keep a log of your conversations with creditors, law enforcement officials, and other relevant parties.
