What Happened? On March 2, 2023, we became aware of suspicious activity involving SLU email accounts. Upon discovering the activity, we began an internal investigation. We also engaged a forensic security firm to investigate the security of our email environment and computer systems. As a result of our investigation, we confirmed that certain email accounts containing your personal information were accessed at various times from [] through []. The forensic investigation confirmed the unauthorized activity was limited to those email accounts and a limited number of documents stored in SLU's SharePoint and OneDrive platforms. In other words, the incident did not involve any other systems or data.

What Information Is Involved? We searched the relevant email accounts for any personal information that could have been viewed, and on April 24, 2023, we learned that some of your information was contained in one of the compromised email accounts. The type of information that may have been viewed varied for each individual, but the information that may have been viewed included your <<b2b_text_1(name, data elements)>>.

To place a security freeze on your credit report, you must send a written request to each of the three major consumer reporting agencies by regular, certified or overnight mail at the addresses below or, if available, comply with the consumer reporting agencies' online security freeze request procedures:
