## RE: NOTICE OF DATA SECURITY EVENT

Dear Sample A. Sample:

At Robeson Health Care Corporation (“RHCC”), we take the privacy and security of patient information seriously. We are therefore notifying you of a data security event. Please read this letter carefully.

### What Happened?

On February 21, 2023, RHCC became aware that our computer network was affected by malware. We disconnected our network from the internet and partnered with computer forensic specialists to restore our systems safely and understand the nature and scope of the event. We commenced a thorough investigation which determined on or about March 31, 2023, that an unauthorized third-party gained access to our systems between February 17 and February 21, 2023. RHCC has no indication that our electronic medical records (EMR) data bases were accessed without authorization. However, based on available evidence, we conducted a fulsome and comprehensive review of all legacy system data present on our network. On October 9, 2023, we concluded that review of former patient information and confirmed that some of your sensitive personal information could have been viewed or taken during the period of unauthorized access. We are notifying you accordingly, and out of an abundance of caution.

### What Information Was Involved?

The information potentially accessible on our network included your name in combination with your [Extra1]. **We stress that to date, we have received no reports or evidence to suggest fraud or identity theft occurred as a result of this event.**

### What We Are Doing

Upon discovery of the suspicious activity, we disconnected our network from the internet and partnered with computer forensics specialists to restore our systems safely. We conducted a thorough investigation to understand the nature and scope of the event. We reset passwords and enabled multi-factor authentication for all users. We also conducted a fulsome and comprehensive review of all legacy system data present on our network to provide any potentially impacted individual notice of this event out of an abundance of caution. While we have no indications of misuse of your data, we have continued to review the policies and procedures in place prior to the event, to identify ways to strengthen our security going forward.

As an added precaution to help protect your identity, we are offering complimentary access to Experian IdentityWorks<sup>SM</sup> for [Extra2] months.

## ADDITIONAL STEPS TO HELP PROTECT YOUR INFORMATION

**Review Personal Account Statements and Credit Reports.** We recommend that you remain vigilant by reviewing personal account statements and monitoring credit reports to detect any errors or unauthorized activity. Under federal law, you also are entitled every 12 months to one free copy of your credit report from each of the three major credit reporting companies. To obtain a free annual credit report, go to [www.annualcreditreport.com](http://www.annualcreditreport.com) or call (877) 322-8228. You may wish to stagger your requests so that you receive a free report by one of the three credit bureaus every four months. If you discover any suspicious items, you should report any incorrect information on your report to the credit reporting agency. The names and contact information for the credit reporting agencies are:

Equifax  
1-888-298-0045  
P.O. Box 105069  
Atlanta, GA 30348  
[www.equifax.com](http://www.equifax.com)

Experian  
1-888-397-3742  
P.O. Box 9554  
Allen, TX 75013  
[www.experian.com](http://www.experian.com)

TransUnion  
1-800-680-7289  
P.O. Box 2000  
Chester, PA 19022  
[www.transunion.com](http://www.transunion.com)

**Report Suspected Fraud.** You have the right to file a police report if you ever experience identity fraud. Please note that in order to file a crime report or incident report with law enforcement for identity theft, you will likely need to provide some kind of proof that you have been a victim. A police report is often required to dispute fraudulent items. You should report suspected incidents of identity theft to local law enforcement, your state's Attorney General, and/or the Federal Trade Commission.

**Place Fraud Alerts.** A fraud alert tells businesses that check your credit that they should check with you before opening a new account. Initial fraud alerts will last one year. Fraud alerts are free and identity theft victims can get an extended fraud alert for up to seven years. If you choose to place a fraud alert, we recommend you do this after activating your credit monitoring. To place a fraud alert, contact the nationwide credit reporting agencies by phone or online using the above contact information. For more information, visit <https://www.consumer.ftc.gov/articles/0275-place-fraud-alert>.

**Place a Security Freeze.** Security freezes, also known as credit freezes, restrict access to your credit file, making it harder for identity thieves to open new accounts in your name. You can freeze and unfreeze your credit file for free. You also can get a free freeze for your children who are under 16. And if you are someone's guardian, conservator, or have a valid power of attorney, you can get a free freeze for that person, too. To place a security freeze, contact the nationwide credit reporting agencies by phone or online using the above contact information. If you request a freeze online or by phone, the agency must place the freeze within one business day. If you request a lift of the freeze, the agency must lift it within one hour. If you make your request by mail, the agency must place or lift the freeze within three business days after it gets your request. You also can lift the freeze temporarily without a fee. Also, do not confuse freezes with locks. They work in a similar way, but locks may have monthly fees. If you want a free freeze guaranteed by federal law, then opt for a freeze, not a lock. For more information, visit <https://www.consumer.ftc.gov/articles/0497-credit-freeze-faqs>.
