Report to the Division

Within their first 30 days, all new officers are required to report their status formally with a Business Statement (Form 30), either by going online in the TransAction Portal (TAP) or by submitting it with required documents and fees as listed on Form 30 found on our website.

Assign a Location Manager

All licensees must designate a location manager. This person provides general oversight and ensures compliance with gambling laws and regulations. Use Form 30A to report at least one location manager, or more if applicable, within 30 days of the manager assuming his or her managerial duties. (Note: Formal training periods do not count against 30 days.) The designee may be an existing officer but must be officially reported to the Department as a location manager.
