Dear <<MemberFirstName>> <<MemberLastName>>,

Protecting the privacy of the personal information of our patients is a critical priority of HealthTexas Provider Network ("HTPN"), which includes Denton Heart Group (the "Clinic"). HTPN is sending you this letter to inform you that portions of your personal health information may have been the subject of a security incident. We want to alert you to the incident, the type(s) of information that may have been included and the actions that HTPN has taken to rectify this matter.

On January 11, 2017, we learned that an external computer hard drive was stolen from the Clinic on or about December 29, 2016. The external computer hard drive was used by the Clinic to back-up or store patient information from the Clinic's electronic health record system and was secured in a locked closet within the Clinic. We promptly reported the theft to law enforcement authorities and we are working with law enforcement in its investigation.

The health information contained on the external hard drive may have included certain demographic information (such as your name, date of birth, address and phone number), <<ClientDef1(driver's license number, Social Security number)>> medical record number, clinic account number, insurance provider's name, insurance group and/or policy numbers, physician's name and clinical information (including diagnosis/conditions, lab test results and medications) related to medical care you received at the Clinic between 2009 and 2016.

To date, HTPN has no indication that any of the information has been further disclosed or used by any other unauthorized individuals or entities. As a precautionary measure, HTPN recommends that you monitor your credit report to be sure that no suspicious activity has occurred with your personal information. Out of an abundance of caution, we are offering a complimentary one-year membership of Experian's® ProtectMyID® Alert. This product helps detect possible misuse of your personal information and provides you with superior identity protection services focused on immediate identification and resolution of identity theft. ProtectMyID Alert is completely free to you and enrolling in this program will not hurt your credit score. Unfortunately, due to privacy laws, we are not able to enroll you directly. **For more information on identity theft prevention and ProtectMyID Alert, including instructions on how to activate your complimentary one-year membership, please see the additional information provided in this letter.** We also recommend that you regularly review the explanation of benefits statements that you receive from your health insurer. If you identify services listed on your explanation of benefits that you did not receive, you should contact your insurance company immediately.

We regret any inconvenience this may have caused you. We take safeguarding patient information seriously and have conducted an internal investigation related to this incident. Necessary corrective actions have been taken to safeguard against similar incidents in the future, and we are taking steps to re-evaluate the security of computer devices within our clinics to further protect our patient's information. Please be assured that the Clinic is committed to providing high quality care and we value the trust you place in us. We hope that you will continue to choose the Clinic for your health care needs.

Should you have any questions or concerns regarding this matter, please do not hesitate to call 1-855-667-7934, Monday to Friday, 8:00 a.m. to 5:00 p.m. Central time.

Sincerely,

Zach Scheele
Director of Operations
