Notice of Data Security Incident

Dear <<FirstName>> <<LastName>> ,

NAFSA: Association of International Educators ("NAFSA") is writing to notify you of a data security incident relating to your purchase through our online store (<https://shop.nafsa.org/>) that may have involved your payment card information. At NAFSA, we take the privacy and security of your information very seriously. We are writing to both inform you of the incident, and to advise you about certain steps you can take to protect your information.

What happened? On May 11, 2020, we learned of suspicious activity occurring in our online store. Upon discovering the activity, we took immediate steps to secure our system and member information. We also immediately took steps to investigate the situation. NAFSA retained and worked with a nationally-recognized forensics firm to investigate whether any purchaser's information had been accessed or acquired without authorization. On July 16, 2020, the forensic investigation determined that certain payment card information may have been exposed as a result of unauthorized activity in the online store.

What information was involved? The unauthorized access to our online store potentially compromised payment card information belonging to individuals who made purchases through our online store between April 8, 2020 and May 15, 2020. The payment card information that may have been compromised included names, card numbers, expiration dates, and security codes.

What we are doing. As soon as we discovered the incident, we took the steps described above. In addition, we reported the matter to the payment card brands to protect your payment card information and prevent fraudulent activity. We have also reported the incident to the Federal Bureau of Investigation, and will provide whatever cooperation is necessary to hold the perpetrators accountable.

As an added precaution, we are offering, at no cost to you, one year of Fraud Consultation and Identity Theft Restoration services through Kroll. Kroll is a global leader in risk mitigation and response, and their team has extensive experience helping people who have sustained an unintentional exposure of confidential data.

Steps You Can Take to Further Protect Your Information

Review Your Account Statements and Notify Law Enforcement of Suspicious Activity: As a precautionary measure, I recommend that you remain vigilant by reviewing your account statements and credit reports closely. If you detect any suspicious activity on an account, you should promptly notify the financial institution or company with which the account is maintained. You also should promptly report any fraudulent activity or any suspected incidence of identity theft to proper law enforcement authorities, your state attorney general, and/or the Federal Trade Commission (FTC).

Copy of Credit Report: You may obtain a free copy of your credit report from each of the three major credit reporting agencies once every 12 months by visiting <http://www.annualcreditreport.com/>, calling toll-free 877-322-8228, or by completing an Annual Credit Report Request Form and mailing it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348. You can print this form at <https://www.annualcreditreport.com/cra/requestformfinal.pdf>. You also can contact one of the following three national credit reporting agencies:

TransUnion	Experian	Equifax	Free Annual Report
P.O. Box 1000	P.O. Box 9532	P.O. Box 105851	P.O. Box 105281

Fraud Alert: You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least one year. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you prior to establishing any accounts in your name. To place a fraud alert on your credit report, contact any of the three credit reporting agencies identified above. Additional information is available at <http://www.annualcreditreport.com>.

Security Freeze: Under federal law, you have the right to put a security freeze on your credit file for up to one year at no cost. This will prevent new credit from being opened in your name without the use of a PIN number that is issued to you when you initiate the freeze. A security freeze is designed to prevent potential creditors from accessing your credit report without your consent. As a result, using a security freeze may interfere with or delay your ability to obtain credit. You must separately place a security freeze on your credit file with each credit reporting agency. In order to place a security freeze, you may be required to provide the consumer reporting agency with information that identifies you including your full name, Social Security number, date of birth, current and previous addresses, a copy of your state-issued identification card, and a recent utility bill, bank statement or insurance statement. You cannot be charged to place, lift or remove a security freeze.

Additional Free Resources: You can obtain information from the consumer reporting agencies, the FTC or from your respective state Attorney General about fraud alerts, security freezes, and steps you can take toward preventing identity theft. You may report suspected identity theft to local law enforcement, including to the FTC or to the Attorney General in your state. Contact information for the FTC is: Federal Trade Commission, 600 Pennsylvania Ave, NW, Washington, DC 20580, www.consumer.ftc.gov or www.ftc.gov/idtheft, 1-877-438-4338. Residents of New York, Maryland, North Carolina, and Rhode Island can obtain more information from their Attorneys General using the contact information below.

You also have certain rights under the Fair Credit Reporting Act (FCRA): These rights include knowing what is in your file; to dispute incomplete or inaccurate information; to have consumer reporting agencies correct or delete inaccurate, incomplete, or unverifiable information, as well as others.
