NOTICE OF <<Variable Header>>

Dear <<Name 1>> <<Name 2>>:

The purpose of this letter is to notify you about a recent data incident that may involve some of your personal information. This notice provides you with information about the incident, our response, and additional steps you may take to protect your information, should you determine it is appropriate to do so.

What Happened? On Sunday, May 1st, 2022, Optoma Technology, Inc. detected unusual activity on certain IT systems. We quickly disconnected these systems from our network and began an investigation. Although this investigation is ongoing, we currently understand that we are the victim of a ransomware attack and that unauthorized access occurred between April 21st and May 1st, 2022. Our investigation is working to identify the data impacted, if any, with particular focus on identifying the individuals impacted. While the nature and extent of the incident are still under investigation, including whether your personal data has been accessed or acquired, in an abundance of caution, we wanted to notify you of the event prior to the investigation's completion so that you may be aware of the event, and take steps to monitor and protect your personal information.

What Information Was Involved? We generally store the following kinds of information on our systems related to employees: name, Social Security number, driver's license or state identification number, government issued identification card, financial account information or payment information, health insurance information, username and password. Therefore, it is possible that some or all of this information related to you may have been affected by this incident.

What We Are Doing. We take this incident very seriously. Information privacy and security are among our highest priorities, and we have security measures in place to protect information in our care. Upon discovering this incident, we investigated and responded to the incident, and are reviewing and enhancing our existing policies and procedures to reduce the likelihood of a similar future event. We have reported this incident to federal law enforcement and are notifying all potentially affected individuals and relevant state regulators as required.

Moreover, as an added precaution, we are offering complimentary access to credit monitoring and identity restoration services to you for 24 months through Equifax because your information may have been present in the systems accessed during the incident.

What You Can Do. We encourage you to remain vigilant against incidents of identity theft and fraud. Be wary of unknown callers, emails or text messages, regularly review your bank and pension accounts for unusual activity and explanation of benefits and review your free credit reports for suspicious activity. You may also review and consider the information and resources outlined in the below "Steps You Can Take to Help Protect Personal Information."

For More Information. If you have additional questions, please call our dedicated assistance line at 510-456-6660 or 510-897-8564 Monday through Friday, 6:00am- 5:00pm PDT (excluding U.S. holidays). You may write to Optoma Tech at 47697 Westinghouse Drive, Fremont, CA 94539 with any additional questions you may have.

Sincerely,

Optoma Technology Inc.

¹The credit scores provided are based on the VantageScore® 3.0 model. For three-bureau VantageScore credit scores, data from Equifax®, Experian®, and TransUnion® are used respectively. Any one-bureau VantageScore uses Equifax data. Third parties use many different types of credit scores and are likely to use a different type of credit score to assess your creditworthiness.

²Credit monitoring from Experian and TransUnion will take several days to begin. ³WebScan searches for your Social Security Number, up to 5 passport numbers, up to 6 bank account numbers, up to 6 credit/debit card numbers, up to 6 email addresses, and up to 10 medical ID numbers. WebScan searches thousands of Internet sites where consumers' personal information is suspected of being bought and sold, and regularly adds new sites to the list of those it searches. However, the Internet addresses of these suspected Internet trading sites are not published and frequently change, so there is no guarantee that we are able to locate and search every possible Internet site where consumers' personal information is at risk of being traded. ⁴The Automatic Fraud Alert feature is made available to consumers by Equifax Information Services LLC and fulfilled on its behalf by Equifax Consumer Services LLC. ⁵Locking your Equifax credit report will prevent access to it by certain third parties. Locking your Equifax credit report will not prevent access to your credit report at any other credit reporting agency. Entities that may still have access to your Equifax credit report include: companies like Equifax Global Consumer Solutions, which provide you with access to your credit report or credit score, or monitor your credit report as part of a subscription or similar service; companies that provide you with a copy of your credit report or credit score, upon your request; federal, state and local government agencies and courts in certain circumstances; companies using the information in connection with the underwriting of insurance, or for employment, tenant or background screening purposes; companies that have a current account or relationship with you, and collection agencies acting on behalf of those whom you owe; companies that authenticate a consumer's identity for purposes other than granting credit, or for investigating or preventing actual or potential fraud; and companies that wish to make pre-approved offers of credit or insurance to you. To opt out of such pre-approved offers, visit www.optoutprescreen.co. ⁶The Identity Theft Insurance benefit is underwritten and administered by American Bankers Insurance Company of Florida, an Assurant company, under group or blanket policies issued to Equifax, Inc., or its respective affiliates for the benefit of its Members. Please refer to the actual policies for terms, conditions, and exclusions of coverage. Coverage may not be available in all jurisdictions.

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a security freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:

Additional Information

You may further educate yourself regarding identity theft, fraud alerts, credit freezes, and the steps you can take to protect your personal information by contacting the consumer reporting bureaus, the Federal Trade Commission, or your state Attorney General. The Federal Trade Commission may be reached at: 600 Pennsylvania Avenue NW, Washington, DC 20580; www.identitytheft.gov; 1-877-ID-THEFT (1-877-438-4338); and TTY: 1-866-653-4261. The Federal Trade Commission also encourages those who discover that their information has been misused to file a complaint with them. You can obtain further information on how to file such a complaint by way of the contact information listed above. You have the right to file a police report if you ever experience identity theft or fraud. Please note that in order to file a report with law enforcement for identity theft, you will likely need to provide some proof that you have been a victim. Instances of known or suspected identity theft should also be reported to law enforcement and your state Attorney General. This notice has not been delayed by law enforcement.
