Re: Notice of Data [Extra1]

Dear Sample A Sample:

The American College of Emergency Physicians (“ACEP”) writes to notify you of an incident that may affect the security of your payment card information. ACEP takes this incident very seriously and is providing you with details about the incident, our response, and steps you can take to better protect your payment card information, should you feel it appropriate to do so.

What Happened? On September 7, 2020, ACEP discovered unusual activity on its e-commerce site. Upon discovery, we commenced an immediate investigation that involved working with computer forensic specialists to determine the full scope of the activity. On September 24, 2020, the investigation confirmed that payment card information used for a subset of purchases on our e-commerce site between May 21, 2020 and September 22, 2020 was potentially subject to unauthorized acquisition. Once we confirmed the scope of the incident, we took steps to identify which ACEP customers may have been impacted and identified address information so that notice could be provided.

What Information Was Involved? Our investigation determined that your name, address, [Extra2] payment card account number, expiration date, card security code, and zip code may have been subject to unauthorized acquisition.

What ACEP is Doing. ACEP takes the security of your payment card information seriously. We note that it appears this incident only impacted a subset of pages in our e-commerce environment. Upon notice of the suspicious activity, we immediately disabled payment card transactions for the impacted pages. We rebuilt our e-commerce servers in a secure environment and notified our payment card processor to put the payment card brands on notice of the incident.

What You Can Do. We encourage you to remain vigilant for instances of fraudulent charges or misuse by monitoring your payment card accounts and reviewing the enclosed *Steps You Can Take to Protect Personal Information* for additional guidance on how to protect against payment card fraud from any source.

For More Information. If you have additional questions that are not addressed in this letter, please call our toll-free assistance hotline at (833) 796-8640, available between Monday through Friday, 8:00 a.m. and 10:00 p.m., Central Time and Saturday & Sunday, 10:00 a.m. and 7:00 p.m. Central Time. Be prepared to provide engagement # B006515 for assistance.

Steps You Can Take To Protect Personal Information

Monitor Your Accounts

We encourage you to remain vigilant against incidents of payment card fraud or misuse, to review your payment card account statements, and to monitor your credit reports for suspicious activity. If you see any unauthorized or suspicious activity, promptly contact your bank, credit union, or credit card company.

Under U.S. law you are entitled to one free credit report annually from each of the three major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

Place a Security Freeze

You have the right to place a “security freeze” on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

Allen, TX 75013

In order to request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. If you have moved in the past five (5) years, provide the addresses where you have lived over the prior five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver's license or ID card, military identification, etc.); and
7. If you are a victim of identity theft, include a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft.

Place a Fraud Alert

As an alternative to a security freeze, you have the right to place an initial or extended “fraud alert” on your file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the agencies listed below:
