Re: Notice of Data Breach

Dear <<first\_name>> <<middle\_name>> <<last\_name>> <<suffix>>,

At San Andreas Regional Center, we value transparency and respect the privacy of your information, which is why we are writing to let you know about a data breach that may involve some of your personal information, what we did in response, and steps you can take to help protect yourself against possible misuse of your personal information.

### **What Happened**

On July 5, 2021, we discovered that we were the victim of a sophisticated ransomware attack that impacted our networks and servers. Ransomware incidents typically involve an unauthorized actor gaining access to an entity's network and deploying malware that encrypts the entity's files, making them inaccessible. The unauthorized actor then commonly demands a ransom payment in exchange for the key to decrypt the entity's files.

After discovering the incident, we quickly took steps to secure and safely restore our systems and operations. Further, we immediately engaged outside counsel and third-party forensic experts to conduct a thorough investigation of the incident's nature and scope, assist in the remediation efforts, and contacted and filed a report with the FBI. We concluded our initial investigation on August 2, 2021, and determined that an unauthorized individual encrypted some of our systems that contained your information. Further, the unauthorized individual acquired some of the information contained on our servers, but we cannot confirm if the information obtained by the unauthorized individual included your information.

*However, as of now, we have no evidence indicating misuse of any of your information, but we wanted to notify you of this incident out of an abundance of caution.*

### **What Information Was Involved**

The types of information potentially involved are your first and last name, address, date of birth, telephone numbers, Social Security number, email address, health plan beneficiary number, health insurance information, full-face photos, and or comparable images, UCI (unique identifying number or code generated by us for you), medical information, diagnosis, disability codes, and other certificate/license numbers.

### **What We Are Doing**

As explained above, we took immediate steps to secure our systems, filed a report with the FBI, and engaged third-party forensic experts to assist in the investigation. Further, in response to this incident, we are implementing cybersecurity safeguards, enhancing our employee cybersecurity training, and improving our cybersecurity policies, procedures, and protocols to help minimize the likelihood of this type of incident occurring again.

### **What You Can Do**

The security and privacy of the information contained within our systems is a top priority for us. Therefore, while we have no evidence indicating your information was misused, we strongly recommend you remain vigilant, monitor and review all of your financial and account statements, and report any unusual activity to the institution that issued the record and law enforcement. Please see "*other important information*" on the following pages for guidance on how to best protect your identity.

**Security Freeze (also known as a Credit Freeze).** Following is general information about how to request a security freeze from the three credit reporting agencies. While we believe this information is accurate, you should contact each agency for the most accurate and up-to-date information. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing, or other services. In addition, in some states, the agency cannot charge you to place, lift or remove a security freeze. There might be additional information required, and as such, to find out more information, please contact the three nationwide credit reporting agencies (contact information provided above).
